

Continuous Improvement - The Corus Way

Introduction

Corus is an international metals company. In 2005 it was the eighth largest steelmaker in the world. The company has an annual turnover of £9 billion. The company has four divisions and a global network of sales offices and service centres. The global steel industry is highly competitive with a number of large businesses. Corus has major steelworks in the UK located at Port Talbot, Scunthorpe, Teesside and Rotherham.
